Summary

Product Designer with 3+ years of post-graduation experience. I work on SaaS, EdTech, AI product flows, design systems, and complex platform UX. I use AI tools like Codex, Claude, Stitch, and Omni in my design process for UI exploration, design system work, product thinking, and faster handoff. At MapUp, I am working on bringing multiple logistics and tolling products into one cleaner platform experience.

Skills

Design	Product design, UI/UX design, interaction design, user research, wireframes, prototypes, user flows, design systems, mobile-first design, responsive design, accessibility basics.
Domains	SaaS UX, AI product flows, EdTech UX, platform UX, visual design, brand identity, AR/VR/XR product experiences.
Tools	Figma, Adobe Illustrator, Adobe Photoshop, Adobe XD, Adobe Premiere Pro, Sketch, Blender, Unity, Canva, PowerPoint, VS Code, Notion.

Dev / no-code	HTML, CSS, JavaScript, React JS, Flutter, WordPress, Webflow, Framer, Bubble, FlutterFlow.

Experience

Sr. UI/UX Designer MapUp India Pvt Ltd	Nov 2025 to Present Delhi, India
■ Working on the design shift from separate logistics and tolling tools to one platform experience. ■ Helped bring 6 products into a cleaner interface so users can move between tools with less friction. ■ Work closely with product and engineering teams to keep the design practical and easy to build. ■ Focus on platform UX, product flows, navigation, UI systems, and clear product behavior.	
Sr. UI/UX Designer Urbandose Pvt Ltd	Jul 2024 to Oct 2025 Delhi, India
■ Designed web, mobile, and AR/VR product experiences for early-stage products. ■ Worked across user research, wireframes, prototypes, final UI, and design systems. ■ Led the redesign of NPrep, an AI-powered nursing exam preparation product. ■ Created better user flows and a design system to make the product easier to use. ■ Worked with product and engineering teams so the design matched product goals and technical needs.	
Product Designer AcadSpace	Jun 2023 to Jul 2024 Bangalore, India
■ Led the mobile-first redesign of the AcadSpace app. ■ Worked with a team of 4 on product design and UI improvements. ■ Improved the app experience for career discovery and student journeys. ■ The platform served more than 85,000 students.	
Visual & UI/UX Designer Analog Digital Solution	Feb 2020 to Jun 2023 Bilaspur, India
■ Worked on 15+ projects across EdTech, B2B SaaS, AR/VR/XR, branding, and UI/UX. ■ Designed brand identities, websites, apps, and final creative assets. ■ Learned how to work with clients, ship fast, and connect design with business goals.	

Selected Projects

MapUp Platform Work: Worked on bringing 6 logistics and tolling products into one platform experience. Best used for platform UX, SaaS, navigation, complex workflows, and product systems. Links: [Website](#) | [Figma](#).
